

Carer Information Prescription

Caring for someone can be very challenging as well as rewarding. To make sure you are getting all the help and support that you are entitled to follow the steps below or call Carers' Support (Bexley) on 020 8302 8011

1. Look after your own health – register as a Carer at your GP Practice. Many surgeries can offer Carers a free flu vaccination, flexible appointments, information and support. To join the Carer Register ask for a Carer Identification Form at reception.
2. You are entitled to a Carers Assessment by your Local Authority – this is an assessment of your needs as a Carer. An assessment can lead to practical support from the local authority to help you with your caring role. This could be someone to help the person you care for with washing, dressing or toileting or getting equipment to help you to lift or move the person you care for. The assessment may also help you get support to have a break from your caring role.
3. Get the latest benefits advice – you may be missing out. There are specific benefits and or reductions in payments that Carers and people with disabilities or health conditions are entitled to.
4. Find out what services and support is available locally for you and the person you care for - Contact Carers Support (Bexley) for information, advice, practical and emotional support to Carers.
5. Get support to stay in or return to work as a Carer. Juggling work and caring for someone can be difficult. You can request flexible working from your employer and have the right to take a 'reasonable' amount of time off work to deal with an emergency involving a dependent. There is also support for Carers looking to get back into work from Job Centre Plus and other agencies.
6. Talk to someone about how being a Carer affects you - It is important to be aware of the affect that caring has on you and your own health. Talking about this can help in itself or be the first step to getting the support that you need.
