## How to use this Guide

All organisations listed in this Guide are in alphabetical order. If you know the name of the organisation you are looking for, they should be easy to find, but please remember that lots of organisations have the word “Bexley” in the title and might put Bexley at the end of their name, rather than at the beginning.

If you are not looking for a particular organisation, but you are looking for a certain type of support, you need to look under “Organisations Listed by Category of Service” on page 9. For example, if you are looking for a break from caring, there are several organisations listed under “Carers’ Breaks”. You can then look up the entries for these organisations to find out more information, including their contact details. There might be a few different categories that would be appropriate to your situation.

If you still can’t find the information or support you are looking for, then please contact us at Carers’ Support (Bexley) and we will see if we can find it for you.

You can contact us by:

Bexley Voice is an independent, parent-led, registered charity supporting parent carers with children and young people (0-25) with special educational needs and/or disabilities (SEND) who live

in and/or attend an educational setting in the London Borough of Bexley. Our aim is to support; inform; signpost and empower SEND parent carers:

Our services are: Support (Tea and Talk support group; workshops and events; Members Facebook Group; Schools and Community Engagement; Regular Information bulletins and free membership); Information and Signposting (relating to activities for CYP; specific SEND issues (including education and preparing for adulthood); key SEND organisations; Jargon busting and parent carer resources; Empowerment for parent carers (opportunity to influence future strategic service planning and use your skills to volunteer with us).

Please note that Bexley Voice is run mainly by volunteers and is only available during school term time. Telephone helpline available part-time Monday to Friday (term-time). Please leave a message and they will endeavour to respond as soon as possible, or enquiries can be sent by email. Membership is free, via the website, for parent carers and professionals who work with SEND.

### **Bliss, the charity for babies born premature or sick.**

Categories: Children and families, Information and support

Phone: 020 7378 1122

E-mail: reception@bliss.org.uk for general enquiries  
hello@bliss.org.uk for support

Website: [www.bliss.org.uk](http://www.bliss.org.uk)

Address: 1st Floor North, 10-18 Union Street, London, SE1 1SZ

Bliss exists to give every baby born premature or sick in the UK the best chance of survival and quality of life. We champion their right to receive the best care by

supporting families, campaigning for change and supporting professionals, and enabling life-changing research. We give parents of premature and sick babies somewhere to turn to for information and support.

We offer the following support services that families can access:

#### Email support service:

Families of babies who are born premature or sick can get in touch with our support team directly by emailing [hello@bliss.org.uk](mailto:hello@bliss.org.uk). This is a self-referral service mainly accessed by parents who are either on a neonatal unit or have had a neonatal experience and would like some further support. We aim to respond to these emails within 3 working days, although usually it's much quicker than that, and act as a supportive outlet for parents providing signposting to services that may be helpful.

#### Online Bliss Champion Service:

This is a service where families can access support over Zoom with a fully trained volunteer Bliss champion. Bliss champions offer emotional support and practical information to parents who have a baby on a neonatal unit, or who have recently been discharged. Many parents have shared that they have found it helpful to talk through how they are feeling with someone, and it can help them feel less isolated when they get home. They can arrange an appointment with a Bliss champion by sending an email to [hello@bliss.org.uk](mailto:hello@bliss.org.uk) and we will set this up for them.

#### Online peer support:

Parents and families can talk to each other and share their experiences by joining our Bliss – Support group for parents of babies born premature and sick which is a private Facebook group. This is a great way to connect online with other parents of premature and sick babies, who share their stories and support each other through difficult times. We have a great group of parents from all over the UK in the group that are really supportive of each other throughout their neonatal journeys.

#### Bliss social media:

By following Bliss on social media, families can also have access to lots of information and support. We have Instagram Q&A's which are saved in the highlights reel (on subjects such as RSV, mental health support, coming home from a neonatal unit with your baby, starting school) We also have lots more in the pipeline.

#### Information and Support Hub:

We have an easy-to-navigate personalised support tool which can be accessed at [support.bliss.org.uk](https://support.bliss.org.uk).

Categories: Enduring Illness, Carers Breaks, Hospice

Phone: 01474 320007

E-mail: [TELH.Clinical-Admin@nhs.net](mailto:TELH.Clinical-Admin@nhs.net)

Website: [www.ellenor.org](http://www.ellenor.org)

Address: Ellenor, Coldharbour Road, Gravesend, Kent, DA11 7HQ.

Services Offered: Ellenor is a specialist palliative care provider for adults and children in Dartford, Gravesham and Swanley, and children only across the London Borough of Bexley. Children's Services.

Within Bexley we provide respite care and wellbeing support for children with a life limiting or life threatening condition, supporting them and their family to cope when things feel overwhelming. Life limiting conditions are those

which we know will result in a shortened life, whereas life threatening conditions are complex health conditions that can result in periods of instability and susceptibility and make the future feel uncertain. Respite. We have a small team of highly skilled health care assistants, lead by a nursing associate, who are able to provide respite care to support families within their own homes. The team prioritises those who are too unwell/young to attend school or nursery and those who are at end of life. The aim of a respite period is to enable parents to have a short break from caring responsibilities, provide some fun for the child, support the siblings and help families to make special memories. Short term respite can also be offered to families who are in crisis due to a change in their child's health or their social situation. This is to support families until things settle down or another agency is able to offer longer term support. Most of our respite sessions are carried out in the home, but we can also provide support when the child is in hospital or take children out to have fun. Social Activities

We offer a range of activities throughout the year for children, young people and their families, providing them with the opportunity to get together in a supported environment, and meet with other families in similar situations, to share experiences and support one another, whilst enabling their child and siblings to enjoy organised activities. These events predominately happen in the school holidays and are often linked to key celebrations, such

as Easter, Mother's Day, Father's day,  
Halloween and Christmas. Wellbeing  
We can provide support for children and their families  
through our range of wellbeing services  
including our Family Support Team, Play and  
Music therapy, Counselling and Bereavement  
support and our specialised GEMS group for  
bereaved children.
